SERVICENOW BUSINESS ANALYST | FUNCTIONAL DESIGN | ENTERPRISE SERVICE MANAGEMENT

London, UK | SC clearance eligible | +44 7380 729840 | Choudhary.ume3001@gmail.com | linkedin.com/in/ume-choudhary

PROFESSIONAL PROFILE

ServiceNow business analyst and functional consultant with 8+ years in discovery, business analysis, functional design and service transformation, and 10+ end-to-end enterprise implementations delivered across EMEA, North America, Latin America and APAC. Owns discovery and design workstreams end to end — leading current-state analysis, process discovery and requirement-validation workshops with business stakeholders, then translating client objectives into functional specifications, process flows, user stories with clear acceptance criteria and implementation roadmaps. Hands-on across multiple ServiceNow modules on enterprise programmes, spanning ITIL-aligned ITSM (Incident, Problem, Change and Request), Service Catalogue, CMDB/CI service dependencies, HR Service Delivery, Employee Center, Case and Knowledge Management, Legal Service Delivery and workplace and Facilities services, delivered into IT, Finance, Audit, HR and Legal operations. Runs Agile scrum ceremonies and drives sprint delivery, adapting the framework to client context, and partners with architects, developers and testers through build, testing, validation and deployment. Applies KPI, adoption and performance reporting to recommend data-driven improvements, and presents confidently to audiences from delivery teams to client C-suite.

CORE SKILLS

ServiceNow Modules & Platform: ITSM: Incident, Problem, Change and Request Management; Service Catalog; CSM: Case Management, Case Types, Customer / Account / Product data model, Self-Service, Knowledge Management; HR Service Delivery (HRSD); Employee Center; ServiceNow EmployeeWorks and Employee Slate; Knowledge Management; Legal Service Delivery; workplace and Facilities service delivery; Now Assist / Agentic AI; reporting and dashboards.

Discovery & Business Analysis: Business process discovery; current-state/as-is and future-state/to-be mapping; requirements elicitation, analysis and validation; gap analysis; solution options and ServiceNow capability fitment; requirement prioritisation; critical thinking and data-driven recommendations.

Functional Design & Documentation: Functional specifications; process flows and workflow design using Figma, Miro board; user stories with clear acceptance criteria; service catalogue structures; approval models; SLA definition; implementation roadmaps; design documentation review and approval; design reviews and stakeholder alignment sessions.

Agile Delivery & Quality: Running scrum ceremonies, managing backlog refinement, sprint planning, sprint demos, reviews and retrospectives; driving sprint development activity; RAID logs and delivery tracking; solution walkthroughs and demos; UAT planning and execution; defect triage; business validation; deployment readiness; hypercare.

Stakeholder Engagement & Communication: Design workshop facilitation; Product Owner and C-suite stakeholder management; presenting to diverse technical and non-technical audiences; onshore/offshore and blended delivery teams.

Tools & Reporting: ServiceNow; RAID logs; Microsoft 365; SharePoint; Power Automate; Microsoft Forms; Excel; Teams; executive dashboards; KPI, performance, adoption and risk reporting.

KEY ACHIEVEMENTS

- Delivered 10+ end-to-end ServiceNow implementations across EMEA, North America, Latin America and APAC, owning discovery and design workstreams on each.
- Improved case resolution by 35% and onboarding efficiency by 40% for a Retail customer using ServiceNow HRSD by defining and governing future-state processes, service catalogue structures, approval models, SLAs and user journey flows.
- Converted 20+ discovery and design workshops into validated requirements, functional specifications, prioritised backlogs and implementation roadmaps for a client operating across 70+ countries.
- Delivered up to 40% process improvement and 200+ hours of annual productivity savings through ServiceNow workflow automation across IT, Finance, Audit, HR and Legal operations.
- Extended ServiceNow into new functional domains post go-live covering Audit and Finance at CT Global, workplace and Facilities at Amazon, defining service scope, intake, approvals, SLAs and governance from a standing start.
- Helped secure two competitive bid wins, including a ServiceNow HRSD and CSM deployment valued at approximately £900k+, by shaping service-design narratives, value cases and executive materials.

PROFESSIONAL EXPERIENCE (8+ years)

Senior Consultant — Capgemini Invent

Jan 2026 – Present

- Lead end-to-end ServiceNow Implementation of 5+ business workstreams for a global client operating in 70+ countries (EMEA, NA, APAC) for CSM and HRSD modules involving 10+ Integrations.
- Organized and Managed discovery and requirement workshops with business stakeholders, product owners and key stakeholders across Talent Acquisition, Performance Management, legal, Rewards, Global Mobility and Payroll department.
- Translate business requirements into functional specifications, process flows, user stories and clear acceptance criteria, and review and approve design documentation before build.
- Run Agile scrum ceremonies including backlog refinement, sprint planning, sprint demos, daily stand-ups and reviews, driving sprint development activity and adapting the framework to client delivery context.

- Own cross-workstream tracking through RAID logs, driving the actions and decisions needed to mitigate risk early and hold delivery to the agreed timeline.
- Collaborate with architects, developers and testers through build, testing, validation and deployment, managing Workday integration dependencies and coordinating go-live readiness.
- Lead initiative of presenting ServiceNow capabilities aligned with business value and strategic outcomes to client C-suite executives, including Conversational Intake, ServiceNow EmployeeWorks and Employee Slate.
- Managed team of 5+ developers (Offshore / Onshore model), providing guidance, necessary inputs and functional support throughout the delivery phase.

Solution Delivery Lead — CT Global — B2B SaaS & Client Services

Aug 2023 – Dec 2025

- Led end-to-end ServiceNow functional implementation across ITSM, HR, Legal, Audit and Finance workstreams, coordinating a blended onshore/offshore team of 10+ client SMEs, delivery resources and third parties.
- Organized workshops with cross functional teams, to understand current state challenges and future state process flows.
- Converted 20+ discovery and design workshops into validated requirements, User stories, functional specifications, prioritised backlogs, solution options and transformation roadmaps, risks and mitigations to reach Product Owner decisions.
- Designed future state processes aligned with Customer outcomes, ServiceNow capabilities and platform best practices.
- Provided functional direction on workflow simplification, requirement prioritisation and ServiceNow capability fitment, balancing business need against scalable out-of-the-box design.
- Improved case resolution by 35% and onboarding efficiency by 40% by defining ITIL-aligned future-state service workflows and governance supporting Incident, Problem and Change Management, service catalogue, approvals, SLAs.
- Documented CMDB/CI and service-dependency requirements used for impact assessment, change risk and consistent service delivery across the IT estate.
- Established ServiceNow Case management for the Audit and Finance functions from a standing start, defining service scope, case intake process, approval hierarchies, SLAs, escalation paths, workflow and reporting.
- Supported business readiness, training and change adoption by translating workshop outputs into documented process flows, functional decisions and implementation roadmaps for business and technical audiences.

Solution Delivery Consultant — Amazon

Jun 2021 – Jul 2023

- Delivered ServiceNow ITSM, CSM and Case Management workflow automation across IT, Facilities, Legal, Compliance and HR through Agile delivery, supporting sprint planning, backlog prioritisation and iterative releases across Incident Management, Request intake, Approvals and Case Management.
- Assessed current state and designed future state processes including service catalogue, request intake, routing, approvals.
- Designed future state process flows and highlighted value adds across different stages through journey map using Miro
- Translated service challenges into future-state workflows, functional requirements, prioritised backlog items and clear acceptance criteria, improving scalability across a high-volume operation.
- Led implementation of ServiceNow Legal Service Delivery and compliance workflow modules to automate contract, request, approval and governance processes.
- Acted as functional liaison between service stakeholders and technical delivery teams, clarifying requirements and supporting solution walkthroughs, UAT, defect triage and business validation.
- Produced process maps, SOPs, training and knowledge content and provided post-go-live hypercare.

HR & Legal Operations Consultant & Project Specialist — Paget Property

Jul 2017 – Jun 2021

- Digitised HR, legal and compliance operations by replacing manual processes with structured workflows across employee requests, legal enquiries and matter tracking, improving control and consistency.
- Built request forms, approval workflows and operational dashboards using SharePoint, Power Automate, Microsoft Forms, Excel and Teams, and translated requirements from business owners, employees and suppliers into process maps, controls, SOPs and training materials.
